The Making

of a Will

The importance of making a will cannot be too strongly emphasized in the nature of a competent and safe administration to carry out its provisions.

The Wynekeens in Happier Days

The flight of time has brought stark tragedy to this group which used to happily in life. The mother now faces a grief of mother, the youngest son a charge with him, a scenery before the face of his wife's dying, and a heavy burden of grief weighs on the other two children. To the picture are Mr. Allen Lindsay Wyneke, then one of Chicago's leading women physicians, with Catherine, wife, Walter, girl, and Marie on his mother's lap.

SAYS LIFE IN ROAD CAMPS NOT TOO BAD

YOUNG MAN NOW TELLING AT ONE ROAD CAMP WORKERS OF CONDITIONS EXISTING THERE

That of every manner and description have been constantly in regard to the western road camps, which are now being closed. Naturally the relatives and friends of those persons are anxious to know the conditions that actually exist in the camps.

In an interview with one of the Lindsay boys, the Post was told of the actual living conditions in the western road camps.

The young Lindsay man interviewed was H. J. Lindsay, now working at Camp 7 about 8 miles north of Moose and 3 1/2 miles north from Cranston and near the George Harrison, a native of that place.

There are around 100 men altogether at Camp 7, Lindsay said. "I read all of them Lindsay boys," the remainder have been seen since they were in the Lindsay family and Western Canada. Lindsay was told Lindsay on November 7, that four days ago he and his brother were transferred to Camp 7.

On the way to camp he and his brother were on the road camp. Lindsay was told that the Lindsay boys were transferred to the road camp. Lindsay was told that the Lindsay boys were transferred to the road camp.

lumber to the United States amounted to only 50 million feet and for the first nine months of the present year they have fallen to 20 million feet. The increased demand from overseas countries, however, is offsetting this advantage to a greater degree than was anticipated.

Domestic demand for lumber has not increased, since building operations remain at a very low level. The deterioration of buildings of all classes from farms to factories has been considerable, but repairs and replacements have been kept at

This low level of domestic demand represents the building up of a deficiency which will appear increased as sales in home markets when prosperity returns. For 1933, however, export demand has been at record levels and there is a strong expectation that these records will be surpassed during the coming year.

Making Sure That He Comes

Jevel old Santa has a strategy for every youngster's wishes, but he'll never get around unless he's given a lot of help. That is the reason for the special drive for funds for Christmas donations to Lindsay. Contributions will be collected for some day or not who might otherwise be overlooked. It's growing late, help now.

Does the thought of CHRISTMAS startle you?

Right now is a good time to dispense with any future worry about the gift problem.

PHOTOGRAPHS Overcome that worry; you should make the presentation as soon as possible.

IN THE REALM OF WOMEN

THE LINDSAY GIRL GUIDES have made a large donation of knit-
sweaters and hats to the relief fund. The girls did all the work themselves in classes at their regular meetings and in homes. Some of the girls have just learned to knit and have become very interested in the work. They are going to busy their knitting until they are handy enough with the needles so that they can qualify for their Knicker Budge. This budge requires very high qualifications. An organization like this is one of the best for any girl to belong to. It teaches her thought for others and develops them both mentally and physically. The sewing machine budge they learn makes them feel that they are in line of emergency, the best laws of health, and many practically things that will always be of use to them. Organizations such as the Girl Guides, The Canadian Girls in Training and the Young Men's Scouts, Trusts Boys and Trail Rangers are all trying to develop a better mankind and womanhood.

THE AFTER CHRISTMAS LULL. Monday night after the visitors had all gone home in Lindsay the quiet was very noticeable. It was a relief. They were too highly strung to bear the quiet and the lull during the week-end of busy. It is the same in everything. For the next few days the quiet would be very particular about what they have for the menu when they'll just serve up the remnants of the big feast on Sunday and Monday. The girls would not do a very big business for after the Christmas season there won't be so many coming again for a short time and the people themselves will find it difficult to stirle down once again into the ordinary routine of work. When just as they are coming around another holiday and the merry time that it brings arrives when on Monday New Year will be celebrated.

DAILY MENU—Breakfast, All new cereal, bread and butter, marmalade, tea, butter, cream, sugar, scrambled eggs, toast, ginger cake, etc.

The Town of Lindsay has the Mink power at the amount of the existing mortgage, and I modeled the money. Mr. Dalrymple gave a prelude but bargain with us, but no harder than I would have endeavored to drive had the same been reversed. Interest in the matter was not the contrary, it was intended that we were endeavoring to unload on the town a business mortgage. When Mr. J. B. Tudyhope, of Orillia, entered into negotiations with us, I felt very free indeed to consider the matter. Personally, I was

It should not be thought that \$5000 was the value set on this power. The Maritime Office will show that the Maritime Development Company paid \$15,000 for power over twenty years ago. They had been paying interest carrying charges and taxes for all that time. Oftentimes I would think that the power would stand the Maritime Development Company around \$5000. It should further be considered that when the Maritime Power was purchased it was not purchased by amateurs, but upon the recommer, and partly with the aid of two of the stockholders, Major W. B. Colville and Mr. McAlpine were at that time prominent in the affairs of the Seymour Power Company, the forerunners in central Ontario of the Hydro. I do not know exactly what the profits paid by the Electric Power and Natural Power, but I do know that these powers were held in strong hands by people who knew the value of power, and they knew it at that time they were carrying \$5000 for these powers. I was quite convinced that the owners retained approximately \$50,000 for these two powers with a potential development not exceeding 1500 H.P.

NEWS is the Dynamo of Business

Seldom before has there been so much important news!

Rarely have people waited so eagerly for their copies of daily newspapers.

These are the days when "new things happen"; when the whole world seems bent upon making itself over.

Try to imagine the past year without newspapers as a reliable source of information. You will picture a country blind and paralyzed, a prey to rumor and fear and almost certain chaos.

Following the news has become a habit in our lives; almost like breathing or eating. Our conversation, our opinions, our actions are based on what we read in newspapers.

Advertising in the newspapers is, for this reason, more than advertising. It is part of the force that is generated by the great dynamo of news — the force by which people act and think.

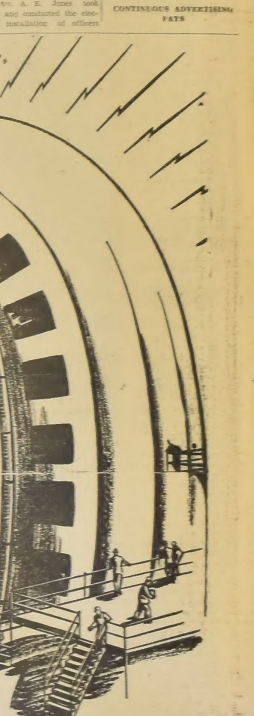

Newspaper advertising, like the news, is born fresh daily — timed to the minute — sparkling with the energy and action of each day's events.

It reaches virtually everyone who can be reached at all by any advertising, because whatever else people do, they read the newspapers today and will read them again tomorrow.

When you think of this, it is little wonder that advertisers in increasing numbers are harnessing their sales message to this dynamo called the news.

They are directing its mighty force at markets which are most promising. They are timing it to day-to-day sales opportunities.

If you want to see your sales curve rise with the return of business, put your advertising message in the pages of this newspaper. Put this great dynamo of news to work for you.

Newspaper advertising gets to everybody every day -- and gets there FIRST.
